*Redes Avanzadas (CLARA)*

**CLARA**

This project is funded  
by the European Union

A project implemented  
by CLARA

# Projects

## **@LIS II Programme**

- ***Extending and Strengthening RedCLARA as e-Infrastructure for Collaborative Research and Support to Development (ALICE2)***

**General Objective.** Stimulate and support collaborative Research within Latin America and with Europe by strengthening the Latin American organization CLARA and the enabling network in frastructure RedCLARA, while fostering the creation and maintenance of research communities working in development related MDG as well as FP7 related issues.

## ***OAS-FEMCIDI (Organization of American States-FEMCIDI)***

- ***Program for Fostering of the Use of Advanced Networks in Latin America for the Development of Science, Technology and Innovation***

**General Objective:** This project aims to enhance and fortify the development of e-Science activities with special focus in the scientific and technological areas within Latin America.

# IADB (Inter-American Development Bank)

## ➤ **Strengthen of the Regional Academic Advanced Networks through CLARA as a Regional Public Good**

**General Objective:** A strategy to allow the Networks (at the national and regional level) to facilitate scientific, technological, and academic exchanges between all educational, research, and innovation institutions in the region.

## ➤ **TPP-LA Telehealth Public Policies in Latin America**

**General Objective:** Aims to build an organizing process for the establishment of rules and regulations for the implementation of national Telehealth policies in Latin America.

## ➤ **Latin American Federal Network of Institutional Repositories of Scientific Documentation**

**General Objective:** Strategy for the construction and maintenance of a federal network of institutional repositories of scientific publications, destined to store, to share and to give visibility to its scientific production, under a frame of agreements related to interoperability and management of the information, supporting the scientific and technological development of Latin America.

CLARA

# FP7 (7th Framework Programme)

## ➤ GLOBAL (Global Linkage Over BroadbAnd Links)

**General Objective:** To allow and help research projects to disseminate their results and training events to a wider audience located in multiple geographical locations through the organization of virtual conferences.

## ➤ EELA2 (e-science grid facility for Europe and Latin America)

**General Objective:** To build a high capacity, production-quality, scalable Grid Facility providing round-the-clock worldwide access to distributed computing, storage and network resources needed by the wide spectrum of applications from European - Latin American scientific collaborations.

## ➤ EVALSO (Enabling Virtual Access to Latin-America Southern Observatories)

**General Objective:** To enabling Virtual Access to Latin-America Southern Observatories.
